

St Bernadette's Primary School, Lalor Park

Thursday 29th November 2018

Dear Parents/ Carers,

As part of the Personal Development and Health Curriculum, Stage 3 will complete a unit on Growth and Development this term.

A component of this topic is Personal Development, in which the areas of puberty and human reproduction are discussed. The students are also shown a video, which describes the changes that occur during puberty and teaches the students about their reproductive organs.

As this is a compulsory component of Personal Development and Health all students will participate in this program. If you wish to view the video that is shown to the students, please contact the office to arrange a suitable time to view this at the school.

Yours Sincerely

Felicity Goodchild, Michelle McDonald and Vanessa Kidd
Stage 3 Teachers
